<b>Office Action Summary</b>	<b>Application No.</b> 10/654,765	<b>Applicant(s)</b> NORDMAN, PAUL S.	
	<b>Examiner</b> Emily Chimiak	<b>Art Unit</b> 1791	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 17 August 2007.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1,3-5,7,9-13,15,17,19-22,25,and 29-33 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amended claims recite the limitation "without requiring shrinkage of the pre-impregnated resin tape layers and the resin to impart a needed degree of structural strength to the window panel (claim 1 15-17 and col. 13 lines 8-9), which was not present in the original disclosure.

### ***Double Patenting***

7. Applicant is once again advised that should claims 18-21 be found allowable, claims 23-24 and 27-28 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

*Response to Arguments*

8. Applicant's arguments filed 08/17/2007 have been fully considered but they are not persuasive.

Claim 13 as amended complies with 35 USC 112 paragraph 2. The 112 rejection of the previous office action mailed 04/17/2007 has been withdrawn.

As to the argument regarding Graff, this reference is not relied on to teach pre-impregnated resin tape. The argument regarding "flat" plates is not commensurate in scope with the claims because the claims do not require a specific shape of the plates.

As to the argument regarding Day et al., the teaching of this reference applies to all fiber impregnated structures as an alternative to impregnating the fibers in situ.

The same response applies to the argument concerning Padden.

As to the argument regarding Skubic et al., the reference is not relied on to teach using a peripheral frame structure as recited in the claims. It generally applies to windows that comprise composites in place of polycarbonate and glass (see Skubic et al. col. 1 lines 5-35).

As to the argument regarding Shorr, the teaching applies to the primary reference as modified by Day et al. and Padden because it is desirable for this window to be formed with resistance to breakage and weather (col. 1 lines 10-14 in Graff).

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
